ANTIMICROBIAL BENTONITE CAT LITTER

Revolutionary
Breakthrough

Odour Control

Antimicrobial Protection

Fast Clumping

Non-Toxic

Dust-Free

Introduction

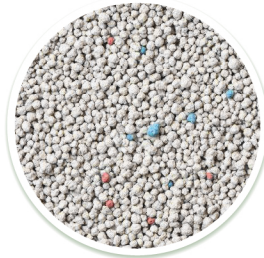

Platinum Choice® Antimicrobial Bentonite Cat Litter offers superior absorption, instantly locking in moisture and odours. Infused with natural plant-based Vikang™ antimicrobial agents, it naturally eliminates **more than 80%** of bacteria and viruses providing a fresher, cleaner environment. Its strong clumping action ensures easy scooping with no mess, while the ball-shaped granules minimize tracking and prevent sticking to paws and fur.

Key Features

- Antimicrobial Protection
- Easy to scoop, Fast clumping
- No tracking
- Deodorise

Ingredients

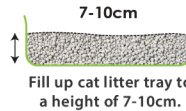

Bentonite Clay, 100% Plant-based Vikang™ Antimicrobial Agents

ANTIMICROBIAL BENTONITE CAT LITTER

Directions for Use

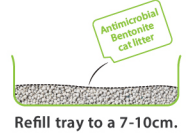

Fill the litter tray to a height of 7 – 10 cm with Platinum Choice® Antimicrobial Bentonite Cat Litter. Remove the clumps or solid waste from the tray with a scoop daily. Refill the tray to maintain the height of at least 7cm of litter.

Fill up cat litter tray to a height of 7-10cm.

Remove clumps and solid waste from tray.

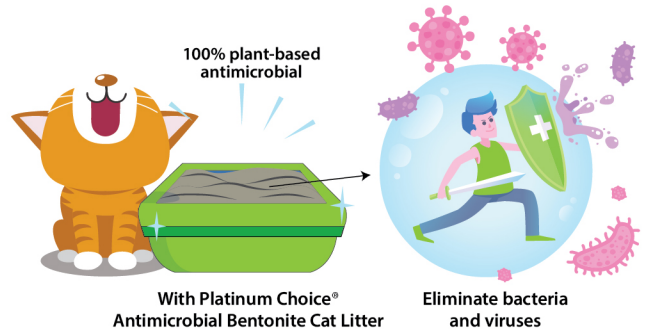

Refill tray to a 7-10cm.

Leaving clumps of pee & poo too long = home of bacteria & viruses!

Normal Bentonite Cat Litter

With Platinum Choice® Antimicrobial Bentonite Cat Litter

Eliminate bacteria and viruses

Certified by TÜV SÜD PSB (99.9% antibacterial) and SGS REACH Test (report available).
